An applicant may appeal the decision of the director regarding such denial by filing a written request for a hearing with the director within 15 days after he is given notice of such denial. The director's decision on the application shall be final unless an appeal is timely filed. The applicant's written request for a hearing shall set out the grounds on

In the event that a transfer application is not timely filed, then the permit shall be invalid for any purpose relating to the operation of the correctional facility, and any transfer shall require the filing of an original permit application and be subject to the regulations application thereto. For purposes of measurements between correctional facilities under section 28-155(b)(2) of this Code, a correctional facility for which the permit has become invalid by operation of this section shall be treated as through it had a permit until the permit is revoked pursuant to section 28-157 of this Code and any appeal therefrom to the city council has been concluded.

(b) The director shall prescribe a form on which permit transfer applications shall be made. The form shall include a statement that the original application remains correct as previously submitted in all respects except those that are amended therein. The transfer application shall be accompanied by a nonrefundable transfer fee of \$100.00. Transfer applications shall be filed in the same place and at the same time as original applications, and the fee shall be payable in the same manner as for original applications, as provided in section 28-153 of this Code.

(c) Transfer applications shall be reviewed, issued and subject to appeal pursuant to section

28-155, except that items (1), (2), and (3) of subsection (b) shall not apply, and they shall be issued for the remaining term of the permit to be transferred.

- (4) The correctional facility or its operation has failed to comply with all applicable statutes and regulations.

(b) Prior to revocation of a permit, the director shall investigate the grounds alleged to determine whether probable cause for revocation may exist and, if so, shall notify the owner(s) and operator in writing of the reasons for the proposed revocation and grant such owner(s) and operator the opportunity to appear at an evidentiary hearing before the planning commission at a time and place specified within such notice. Such hearing shall be held not less than 15 days after the notice is given. Hearings shall be conducted under rules consistent with this Code and with the nature of the proceedings and which ensure that each party may present evidence, cross examine witnesses and be represented by legal counsel. Rule 12 of the city council's rules of procedure (section 2-2 of this Code) shall be applicable. If, after the hearing, the planning commission finds by majority vote of those present at the hearing that the permit should be revoked, it shall issue a written order revoking such permit which shall be effective.

tive on the sixtieth day after notice thereof is given to the operator. A tie vote of those present at the hearing shall constitute a finding that the permit should be revoked.

(c) Any operator or owner(s) who have complied with rule 12 shall have the right to appeal an order of the planning commission revoking a permit to the city council in accordance with the procedure set forth in section 28-155(f). The filing of an appeal of a revocation to the city council shall have the effect of superseding or suspending the order of the planning commission pending the disposition of the appeal to city council.

(d) A correctional facility shall be treated as having a permit for purposes of measurements under section 28-155(b)(2) of this Code, pending the date for filing an appeal of a permit revocation, and if an appeal is filed, pending the disposition of the appeal by the city council.

If an appeal is timely filed, the director shall cause the matter to be referred to the planning commission, and the commission's determination shall be final.

(d) Each permit shall identify the owner and state whether it is a restricted permit, unrestricted permit or registration. Each permit shall identify the tract to which it pertains, and restricted permits and registrations shall identify the building(s) or structure(s) upon the tract to which they pertain. Registrations shall also state whether the tract had rail service on the effective date and whether the tract had out of doors manufacture, processing, generation, storage or use of hazardous materials on the effective date. (Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-234. Transfer.

Upon any change of ownership of the tract to which it pertains, a permit may be transferred to

the new owner upon request and payment of a fee of \$25.00 and proof of the change of ownership of the tract.

(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-235. Revocation.

(a) Following notice and a hearing, a permit may be revoked if it is determined that:

- (1) The permit application was materially false or incomplete;
- (2) The permit was issued through error;
- (3) The permit holder has failed to comply with any applicable provision of this article; or
- (4) The use of the tract as an enterprise has been discontinued for a continuous period of 180 days.

(b) An least 30 days notice of a revocation hearing shall be provided to the permit holder by depositing the same in the United States mail, first class, certified, return receipt requested, addressed to the last known address of the permit holder; provided that the notice shall be posted at the tract if returned by the U.S. Postal Service. The notice shall set forth the alleged grounds for the revocation and the date, time and place for the hearing.

(c) The burden of demonstrating that a permit should be revoked shall be upon the city, and the permit holder may also present evidence and cross examine witnesses. The hearing shall be conducted by the planning commission, who shall revoke the permit if they determine by a preponderance of the evidence that grounds exist for revocation. If the grounds are based upon item (a)(3) above, and if the permit holder demonstrates that the violation(s) were not intended and that effective measures have been taken to prevent their reoccurrence, then the commission may suspend the permit for a period of time in lieu of revocation, if it determines that justice would thereby be served. The decision of the planning commission to suspend or revoke a permit shall be made in writing and shall set forth the grounds therefor. The planning commission's determination shall be final.

(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-236. Registrations.

(a) An enterprise in existence or in process of construction on the effective date may continue to operate without a permit for a 60-day period during which an application may be filed with the director, and thereafter may be authorized by the director to continue to operate while the city is acting upon the application.

(b) In lieu of seeking or in the alternative to seeking a restricted permit or an unrestricted permit, an enterprise in existence or in process of construction on the effective date may seek a registration.

(c) Applications for registrations shall not be subject to the land use criteria specified in items (2) and (3) of section 28-233(a) of this Code and shall be granted or denied without notice and a hearing as otherwise provided in this division. However, if the applicant alternatively seeks a restricted permit or an unrestricted permit, then the applicant shall be subject to all criteria of this division with respect to the application insofar as it seeks a restricted or unrestricted permit.

(d) For purposes of this section, a building or structure is considered to be in process of construction when another permit required for its construction is applied for with the jurisdiction having authority to issue the other permit or if no other permit is required, when actual work commences on the ground.

(e) The director may extend the filing period for a registration upon demonstration to the director by clear and convincing evidence that the enterprise was in fact in operation on the effective date and that the applicant's failure to timely file was based upon an error or misunderstanding and not the result of conscious indifference to the requirements of this article.

Secs. 28-237—28-240. Reserved.**DIVISION 3. EXPANSION, ETC.****Sec. 28-241. Restricted permits—Expansion or construction.**

A restricted permit is valid only for enterprise operations within the building(s) and/or struc-

ture(s) identified thereon for that purpose. Any expansion of the building(s) or structure(s) to which the permit pertains, conversion of any other building or structure to use for enterprise operations or construction of any additional building(s) or structure(s) for enterprise operations shall require the application for and issuance of a new permit under this article. The holder of a restricted permit may not manufacture, process, generate, store or use hazardous materials out of doors upon the tract without first obtaining a new unrestricted permit.

(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-242. Unrestricted permits—Expansion or construction.

The holder of an unrestricted permit may construct additional buildings or structures, convert the use of buildings or structures or undertake expansion of existing buildings or structures upon the tract to which the permit pertains without first obtaining a new permit under this article. The holder of an unrestricted permit may not expand the size of the tract to which the permit pertains without first obtaining a new permit for the expanded tract.

(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-243. Limitations upon registrations.

(a) A registration authorizes enterprise operations within building(s) and structure(s) identified for that use on the registration.

(b) A registration authorizes out of doors manufacture, processing, generation, storage or use of hazardous materials on the tract only if so designated on the registration.

(c) Any expansion of the building(s) or structure(s) to which the registration pertains, conversion of any other building or structure to use for enterprise operations or construction of any additional building(s) or structure(s) for enterprise operations shall be authorized only on the following basis:

- (1) If the tract had rail service on the effective date and the rail service is designated on the registration, then no restriction exists.

- (2) If the tract did not have rail service on the effective date, then construction or expansion will only be authorized following application, notice, a hearing, if requested, and permission of the director or the planning commission as provided in sections 28-231 through 28-233 of this Code, except that the residential land use test criteria of section 28-233(a)(2) shall be adjusted so that:

- a. The test shall be based upon two-thirds or more, rather than one-third or more, of the tracts if the tract takes its street access exclusively from a major thoroughfare;
- b. The test shall be based upon one-half or more, rather than one-third or more, of the tracts if the tract does not take access exclusively from a major thoroughfare.

(d) The tract upon which an enterprise operating under a registration is situated may not be expanded, unless the enterprise seeks and obtains a new restricted or unrestricted permit.
(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-244. New permits; etc.

(a) Applications for new permits, where required under this division, shall in all respects be treated as original permit applications under division 2 of this article. Without limitation, land use determinations shall be based upon uses in existence at the time that the new permit application is filed.

(b) Applications for construction or expansion under registrations that are filed under section 28-243(c) of this Code shall be processed in the same manner as new restricted permit applications. Land use determinations thereunder shall be based upon uses in existence at the time that the application for construction or expansion is filed.

(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-245. Other buildings.

The provisions of this division shall not be construed to preclude the construction or expansion

of buildings that do not constitute Class H, division 1, 2 or 3 occupancies or constitute Class H, division 7 occupancies where any highly toxic material is manufactured, processed, generated, stored or used. However, it shall be the duty of any holder of a registration or a restricted permit undertaking such expansion or construction to first notify the director in writing.
(Ord. No. 96-1361, § 2, 12-18-96)

Sec. 28-246. When revocation proceedings are pending.

No application for a new permit or for expansion of operations under a registration that is required under this division shall be considered by the director or the planning commission while a revocation proceeding relating to the same tract is in progress under section 28-235 of this Code. In that instance, the director shall notify the applicant that action on the application will be withheld pending the resolution of the revocation proceeding.
